

## Thornton Academy

### Annual Notification of Asbestos-Containing Building Materials

To: All Thornton Academy employees, parents and guardians

All schools/buildings have been inspected for the presence of Asbestos-Containing Building Materials (ACBMs). A written plan for the management has been developed. This plan, noting the type and location of ACBMs, is available for inspection at the office of the Facilities Director located at the Facilities Management Office, 438 Main Street Saco, ME.

The management plan is an outline of operational procedures designed for the proper maintenance and safety of all people who work, study, or are otherwise present in any of these buildings to minimize the exposure to asbestos hazards.

The condition of all ACBMs will be semi-annually inspected.

The following inspections and maintenance activities occurred during the 2014-2015 school year:

1. Semi-annual Inspections
2. Custodial and Maintenance Training

The following activities are planned for the 2015-2016 school year:

1. Semi-annual Inspections
2. Custodial Awareness Training
3. Maintenance Training
